

ISSÉ

ÉDITEUR DE
NATURE SINGULIÈRE

SOPHIE DRIES X ISSÉ

ISSÉ, luxury editor in the Casamance Group x Sophie Dries,
renowned architect and designer

An exploration of materials with the collaborative design of a natural and unique open-work voile previewed at *Milan Design Week*.

The **ISSÉ** brand was created a year ago and is already established as the new name in discrete luxury, inspired by the untamed elegance of nature. Part of the **internationally renowned Casamance Group**, ISSÉ makes the home a living space, blurring the boundaries between indoors and outdoors. The fabrics draw their strength from the lines of landscape, the light on a rock, a breath of wind – so many details to be found in the fabric. Fabrics designed to last, take root and hold their own in their surroundings. The collections are a subtle combination of the inspirational untamed landscapes and the expert hands that make them.

During **Milan Design Week**, ISSÉ will present its **first creative collaboration** with the architect-designer **Sophie Dries**, with an immersive setting. This encounter resulted in a **beautiful natural and unique open-work voile**, designed to express the essence of vegetal fibre.

A graduate of **ENSA Paris-Malaquais** and **Aalto University in Helsinki**, **Sophie Dries** divides her time between **Paris and Milan**. Her aesthetic style is characterised by a balance between luxury and authenticity: she places the quintessence of the materials and the craftsmanship at the heart of her design process, combining traditional techniques with new, contemporary skills to blend modernity, elegance and comfort coherently and audaciously.

From this vision comes an exclusive collaboration. Looking to create a refined voile using **natural fibres**, to filter the light without glare or opacity, Sophie Dries worked with ISSÉ to develop a textile to match these requirements. Inspired by the **knitted weave of tapestries**, Sophie Dries imagined a fine and organic voile in **100% jute**. Its weave features slight irregularities and variations in the colour, emphasising its authentic character. Its natural appearance may evolve over time, reflecting the very essence of living material, breaking down the barriers between the interior and the exterior.

The “**Sophie**” voile will be officially launched during **Milan Design Week**, at the heart of a setting designed by Sophie Dries. An immersive space to celebrate the elegance and finesse of vegetal fibres and the pairing of natural materials and exceptional design.

Milan, April 20-26, 2026
Exclusive address to be revealed soon
