

“Lumière” tabs collection by Vicario Design by EMO

Milano Design Week
Brera Design District
Via Statuto 13
20-26 April 2026

Inside “Water Heritage”, the Milan Design Week 2026 immersive installation by JoeVelluto for Vicario, you’ll discover “Lumière” tabs collection for bathroom and kitchen.

Lumière stems from the idea of the hidden, luxurious *art de vivre* of the last century.

Its perfect and steady lines merge together beautifully, giving rise to a unique yet complete range.

The black crystal inlay adds a fancy and lavish feel, conveying an undeniable elegance

A tribute to the *Ville Lumière*, which enlightened the European scene over the past century, with an echo that is still perceivable today.

Each piece is handmade and it is given by the perfect balance of linear and round forms.

The ribbed texture and stripped pattern characterise the look of this range, giving a touch of sophistication and contributing to the creation of the most contemporary effect.

Available in 7 different finishes (chrome, black brushed nickel, brushed gold, matt black, tobacco, brushed nickel, polished nickel) and many different sizes for bathroom and kitchens.

Vicario

Innovation, technical research, and creativity are woven into the very fabric of Vicario.

A 100% Italian family-owned company, it has been led for over 25 years by Daniele and Rossana Vicario, the children of founder Armando.

Founded in Gozzano on Lake Orta in 1974 out of a passion for engineering excellence, today Vicario is a brand that blends tradition with design trends.

By combining elegance, craftsmanship, technological innovation, and creativity, it has successfully interpreted the evolution of the bathroom world over the years.
