

Company Profile

CPRN -Tuscan DNA for a new concept of evolved art

The authenticity of **Tuscan tradition** and the versatility to interpret the contemporary—these are the cornerstones of **CPRN**, an **Italian excellence** that stands out in the design landscape with its concept of evolved craftsmanship.

Based in the **heart of Tuscany**, in a setting of extraordinary charm, **CPRN** expresses its strong identity through a style that is both essential and bold. The true protagonists are fine, natural materials, crafted with the expertise of high-end artisanal manufacturing to create an exclusive and timeless elegance.

A constantly *evolving style*, always ready to adapt to the needs of an increasingly sophisticated living experience. In recent months, CPRN has embarked on a renewal process, enriching its collections with new indoor and outdoor proposals inspired by the aesthetics of the 1970s and 1980s.

The result is a **harmonious dialogue** between eras and influences, where different aesthetic codes merge to create a seamless continuity between spaces, all while maintaining a distinctive and recognizable identity.
