A captivating autobiographical book, 'Stories' by Matteo Thun, offers a deep dive into the life and work of the influential architect. With a career spanning four decades - and counting - Thun has been prolific, designing some of the world's most renowned resorts, and public, residential and office buildings. Taking the reader on a journey across the globe to look at them, this book also provides insights into the architect's personal life and friendships, as well as his past and present, revealing the personality and force behind those architectural projects that we know and love.
